Hi,

That approach sounds reasonable to me.

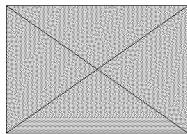

I would support that approach.

Thanks,

Jeryl

Subject: OU-3 HHRA Tech Memo

Dave,

Rather than waiting until you can schedule a discussion with EPAs risk team to submit Tech Memo #1, I would like to propose a path where we submit Tech Memo #1 and use that as a basis for a group discussion and agreement on path forward for TM #2. Similar to the approach Dante is using with OU-7, I would suggest an “over the shoulder” review of the Tech Memo and discussion of any differences or changes before TM#2 , not a review, comment, revise loop for the TMs.

Let me know what you think about this approach. If you agree, I can get the team working on finalizing TM #1. If needed, we can discuss more this week when we get together in Reno/Yerington.

Thanks,

-jack
